Gurukulam (H), Kuthiravattom (PO), Calicut -16

EXPERIENCE.

CONSTRUCTION MANAGEMENT | CARBON BLUE GLOBAL | QATAR | 2024

- Successfully completed a 6-month course at Carbon Blue Global Institute, focusing on planning, BOQ preparation, and quantity surveying.
- Live Project Experience: Gained hands-on experience by working on a running project in Qatar, utilizing Primavera for planning, scheduling and project management.
- Primavera Proficiency: Applied Primavera software to streamline project planning, resource allocation, and progress tracking in a real-world construction environment.

CIVIL SITE ENGINEER | STAPATI | CALICUT | AUGUST 2024 - CURRENT

- Project Coordination: Overseeing two residential projects (15,000 sqft and 8,000 sqft) while collaborating with structural engineers and vendors to align designs with architectural drawings, ensuring seamless integration.
- Issue Resolution: Identifying and resolving discrepancies between structural and architectural drawings to prevent project delays and maintain design integrity.
- Stakeholder Collaboration: Effectively managing communications with structural engineers and vendors to streamline workflows and deliver projects within specified timelines and quality standards.

CIVIL SITE ENGINEER | MALBAR GROUP | PAN INDIA | JANUARY 2022 – AUGUST 2024

- Spearheaded the effective implementation of 7 interior fit-out projects for Malabar Gold and Diamonds jewelry stores in various states, overseeing spaces of up to 10,000 sqft each. Ensured strict compliance with timelines and quality benchmarks
- Coordinated with cross-functional teams and subcontractors to optimize project workflows,
- Managed collaborative communication channels with stakeholders, guaranteeing smooth coordination among design, procurement, and construction phases.

CIVIL SITE ENGINEER | T K PRASANTH AND ASSOCIATES | CALICUT | 2017 - 2021

- Successfully oversaw and implemented six villa projects in Calicut city, guaranteeing compliance with design requirements and project schedules
- Utilizing AutoCAD & 3Ds MAX, Created precise 2D & 3D drawings that effectively enhanced communication among stakeholders, resulting in a notable enhancement in project visualization and coordination.
- Advised and led clients in the procurement of top-notch materials at affordable prices, resulting reduction in project expenses without compromising on the desired quality benchmarks.

EDUCATION.

B-TECH IN CIVIL ENGINEERING | M-DIT CALICUT | 2013-2017

SKILLS.

- Quantity Surveying and BOQ preparation
- Project coordination
- Project deadlines
- Project management
- Schedule implementation
- Technical drawings
- Concept studies
- Site layout

CERTIFICATION.

- Licensed Civil engineer
- 3ds max 2019
- Revit 2019
- AutoCAD 2019
- Quantity Surveying

LANGUAGES.

- Malayalam
- English
- Hindi

PROJECT.

- Led a comprehensive project on “**Partial replacement of fine aggregate in concrete by iron slag**”. From the detailed study and experiment which are conducted, the optimum strength of concrete is at 30% - 40% replacement of iron slag.
- Implemented and conducted a seminar on “**Automated irrigation system sensing moisture content**” resulting in significant conservation of manpower and water resources, leading to a notable improvement in crop production and a subsequent increase in profits for agricultural lands facing severe rainfall shortages; applicable to various soil types.
